KIDDE “IONISATION” BATTERY SMOKE ALARMS

Kidde i9060 Smoke Alarm with Hush Feature – 5 year Warranty

- Battery-powered smoke alarm that uses an ionisation sensor to detect fast-flaming fires that can burn combustible materials quickly and without warning
- Combined Test/Hush™ button allows regular testing of alarm function and can be used to temporarily silence nuisance alarms
- Battery operation – 9V battery supplied as standard
- This versatile battery-powered unit is easy to install and can be used anywhere in the home, particularly bedrooms, living rooms and hallways

Part No.	Description
----------	-------------

81/00932	Ionisation Smoke Alarm c/w Test and Hush Button – 5 year warranty (i9060UK-C)
----------	---

Kidde i9080 Smoke Alarm with Escape Light

- Battery-powered smoke alarm with built-in light that helps illuminate your way to safety in the event of an incident – it uses an ionisation sensor to detect fast-flaming fires that can burn combustible materials quickly and without warning
- Built-in emergency escape light designed to guide you to safety through smoke and fire
- Combined Test/Hush™ button allows regular testing of alarm function and can be used to temporarily silence nuisance alarms
- Battery operation – 9V batteries x 2 supplied as standard
- This easy-to-install battery-powered unit is ideal for use in hallways and on landings where the high intensity escape light can help to highlight the principal escape routes from a smoke-filled building

Part No.	Description
----------	-------------

81/00933	Ionisation Smoke Alarm c/w Test and Hush Button with escape light – 5 year warranty (i9080UK-C)
----------	---

KIDDE “OPTICAL” BATTERY SMOKE ALARMS

Kidde 10Y29 10 Year Smoke Alarm

- Compact and simple smoke alarm with a non-replaceable, sealed-in Lithium battery for 10 years of continuous protection – meaning the user never needs to change the battery for the full duration of the alarm's life
- 10-year long life operation – never need to change the battery
- Sealed-in battery never needs to be replaced
- End of life notification alerts you after 10 years when it's time to replace the alarm
- Ramp-up Horn allows sound emitted during test sequence to be reduced to a more acceptable volume for the user
- Combined Test/Hush™ button allows regular testing of alarm function and can be used to temporarily silence nuisance alarms
- Battery operation – Sealed-in Lithium battery
- This compact and versatile unit is easy to install and can be used anywhere in the home, particularly bedrooms, living rooms and hallways, with the added convenience of never having to change the battery

Part No.	Description
----------	-------------

81/00934	Optical Smoke c/w Test and Hush Button – 10 year battery life & 10 year warranty (10Y29-UK)

Section 10

DOMESTIC FIRE SAFETY

Kidde 29D Smoke Alarm – 5 Year

- Battery powered smoke alarm that uses an optical sensor
- Battery operation – 9V battery supplied as standard
- Test Button – allows regular testing of smoke alarm function
- This battery-powered alarm is easy to install and can be used in most locations throughout the home, in particular in bedrooms and living areas

**Part No. Description**

81/03626 4" Optical Smoke 5 year battery, test (29D)

Kidde 29HD Smoke Alarm with Hush Feature – 5 Year

- Battery powered smoke alarm that uses an optical sensor. This alarm includes a 'hush' control feature that allows nuisance alarms (such as those caused by cooking or steam) to be temporarily silenced.
- Battery operation – 9V battery supplied as standard
- Hush™ button – allows nuisance alarms to be temporarily silenced
- Test Button – allows regular testing of smoke alarm function
- This battery-powered alarm is easy to install and can be used in most locations throughout the home, in particular in bedrooms and living areas

**Part No. Description**

81/03627 4" Optical Smoke 5 year battery, Test and Hush Button (29HD)

KIDDE "BATTERY" CARBON MONOXIDE ALARMS**Kidde 7DCOC 10 Year Carbon Monoxide Alarm with Digital Display**

- Sleek, lightweight battery-powered CO alarm provides long-term protection against the dangers of deadly carbon monoxide and provides continuous monitoring of CO levels, the 10-year sensor lasts longer than most other CO alarms
- Continuous monitoring of carbon monoxide
- Digital display clearly shows levels of carbon monoxide
- Peak level display allows the highest CO level recorded between 11-999ppm to be displayed
- Tested and approved for use in boats and caravans
- Multi-function green and red LEDs to indicate power and alarm status
- End-of-life warning alerts user to replace alarm after 10 years of protection
- Test/Reset button to allow regular testing of alarm function
- Battery operation – 3 x AA Alkaline batteries supplied as standard
- This slim, easy-to-use alarm is ideal for use in all living areas and can be installed on the wall, where the digital display can easily be seen, or used freestanding on a table or shelf. It is also conveniently portable so can be taken away on holidays or used on boats or in caravans for added peace-of-mind.

**Part No. Description**

81/02090 CO Detector – Alkaline batteries, 10 year sensor life with digital display (7DCOC)

Kidde 7COB & 7COC (clamshell) 10 Year Carbon Monoxide Alarm with Alkaline Batteries

- Sleek, lightweight battery-powered CO alarm provides long-term protection against the dangers of deadly carbon monoxide and provides continuous monitoring of CO levels, the 10-year sensor lasts longer than most other CO alarms
- Continuous monitoring of carbon monoxide
- Tested and approved for use in boats and caravans
- Multi-function green and red LEDs to indicate power and alarm status
- End-of-life warning alerts user to replace alarm after 10 years of protection
- Test/Reset button to allow regular testing of alarm function
- Battery operation – 3 x AA Alkaline batteries supplied as standard
- This slim, easy-to-use alarm is ideal for use in all living areas and can be installed on a wall or ceiling or used freestanding on a table or shelf. It is also easily portable so can be taken away on holidays or used on boats or in caravans.

Part No.	Description
82/00519	CO Detector – Alkaline batteries, 10 year sensor life (7COB)
81/03621	CO Detector – Alkaline batteries, 10 year sensor life – Clamshell (7COC) – 10 year warranty

Kidde 10LLDCO 10 Year Carbon Monoxide Alarm with Digital Display

- Sleek, lightweight CO alarm with a non-replaceable, sealed-in Lithium battery for ten years of continuous protection – meaning the user never needs to change the battery for the full duration of the alarm's life
- Sealed-in Lithium batteries – will last the full 10-year alarm life without ever needing to be replaced
- Peak level display allows the highest CO level recorded between 11-999ppm to be displayed
- Digital display clearly shows levels of carbon monoxide
- Unique water-based Kidde CO Electrochemical Sensor
- CO 'Quick-Test' feature – temporarily de-sensitises the CO sensor to allow quick-testing using Kidde approved CO sprays
- Interrogation feature – allows peak level, test history to be analysed by Kidde upon arrangement
- 3 LEDs – Alarm, Operate and Fault
- End-of-life warning alerts user to replace alarm after 10 years of protection
- Test/Reset button to allow regular testing of alarm function
- This slim, easy-to-use alarm is ideal for use in all living areas and can be installed on the wall, where the digital display can easily be seen, or used freestanding on a table or shelf. It is also conveniently portable so can be taken away on holidays for added peace-of-mind.

Part No.	Description
81/03622	CO Detector – 10 year sealed in battery with digital display (10LLDCOB)

Section 10

DOMESTIC FIRE SAFETY

Kidde 10LLCO 10 Year Carbon Monoxide Alarm

- Sleek, lightweight CO alarm with a non-replaceable, sealed-in Lithium battery for ten years of continuous protection – meaning the user never needs to change the battery for the full duration of the alarm's life
- Sealed-in Lithium batteries – will last the full 10-year alarm life without ever needing to be replaced
- Continuous monitoring of carbon monoxide
- Alarm memory – the red LED will flash every 60 seconds to indicate a CO 'event' has occurred
- Unique water-based Kidde CO Electrochemical Sensor
- CO 'Quick-Test' feature – temporarily de-sensitises the CO sensor to allow quick-testing using
- Kidde approved CO sprays
- Interrogation feature – allows peak level, test history to be analysed by Kidde upon arrangement
- 3 LEDs – Alarm, Operate and Fault
- End-of-life alarm alerts user to replace alarm after 10 years of protection
- Test/Reset button to allow regular testing of alarm function
- This slim, easy-to-use alarm is ideal for use in all living areas and can be installed on a wall or ceiling or used freestanding on a table or shelf. It is also easily portable so can be taken away on holidays

Part No.	Description
81/03631	CO Detector – 10 year sealed in battery (10LLCOB)

KIDDE "BATTERY" COMBINATION SMOKE AND CARBON MONOXIDE ALARM**Kidde 10SCO Combination Smoke and CO Alarm – 10 Year**

- Battery-powered combination alarm that offers protection from the dual dangers of smoke and carbon monoxide in a single unit for added convenience – the voice alarm feature audibly announces which danger has been detected
- Voice Alarm feature tells you which danger has been detected even after the event
- Peak level memory provides notification (voice and LED) when dangerous CO levels have been previously detected
- Front loading battery compartment makes changing the battery easy and convenient (right)
- Hush™ button to temporarily silence nuisance alarms
- Test/Reset button to allow regular testing of alarm function
- Battery operation – 9V battery supplied as standard
- Designed to be wall or ceiling-mounted, this battery-powered unit is perfect for when space is limited but protection is paramount. It can be used in most locations throughout the home but check in in-pack guidelines for specific installation instructions.

Part No.	Description
82/00408	2 in 1 Alkaline batteries – 10 year sensor life – (10SCO) – 10 year warranty

LIFESAVER “BATTERY” SMOKE ALARMS

Lifesaver i9040LSB & i9040TLSB 9V Micro Smoke Alarm with Test Button – 3 Year

- Compact (4-inch, 10cm), battery-powered smoke alarm for use where space is limited – it uses an ionisation sensor to detect fast-flaming fires that can burn combustible materials quickly and without warning
- Combined Test/Hush™ button allows regular testing of alarm function and can be used to temporarily silence nuisance alarms
- Battery operation – 9V battery supplied as standard
- This small, easy-to-install battery-powered unit is ideal for use anywhere in the home and provides effective additional protection when used alongside other smoke alarms

Part No.	Description
82/00505	9V Micro Smoke Detector with Test Button – Boxed (9040LSB) – 3 year warranty
81/03623	9V Micro Smoke Detector with Test Button – Twin Pack (9040TLSB)

LIFESAVER “BATTERY” CARBON MONOXIDE ALARMS

Lifesaver 5COLSB Carbon Monoxide Alarm with Alkaline Batteries – 7 Year

- Compact and lightweight battery-powered CO alarm provides essential protection against the dangers of deadly carbon monoxide and provides continuous monitoring of CO levels
- Continuous monitoring of carbon monoxide
- Multi-function green and red LEDs to indicate power and alarm status
- End-of-life alarm alerts user to replace alarm after a minimum of 7 years' protection
- Test/Reset button to allow regular testing of alarm function
- Battery operation – 3 x AA Alkaline batteries supplied as standard
- This small, easy-to-use alarm is ideal for use in all living areas and can be installed on a wall or ceiling or used freestanding on a table or shelf

Part No.	Description
82/00223	CO Detector Compact, Alkaline batteries, 7 year sensor life (5COLSB)

LIFESAVER “BATTERY” COMBINATION SMOKE AND CARBON MONOXIDE ALARM

- Every home should have at least one Carbon Monoxide Alarm and one Smoke Alarm on each floor. Both alarms in this pack are lightweight and easy to use
- The CO1SA pack comprises of a 5CO carbon monoxide alarm and an i9040 smoke alarm
- Continuous monitoring of carbon monoxide
- Multi-function green and red LEDs – indicates power and alarm status
- End-of-life alarm – alerts user to replace alarm after a minimum of 7 years of protection
- Test/Reset button – allows regular testing of alarm function
- Battery operation – 3 x AA Alkaline batteries supplied
- This small, easy-to-use alarm is ideal for use in all living areas and can be installed on a wall or ceiling or used freestanding on a table or shelf

Part No.	Description
81/03624	i9040 Smoke & 5CO Carbon Monoxide (clamshell) (CO1SA3)

Section 10

DOMESTIC FIRE SAFETY

FIREX IONISATION “MAINS” SMOKE ALARMS

Firex KF10 Smoke Alarm – 9V Alkaline battery back-up – 6 Year

- Mains-powered ionisation smoke alarm that can be interlinked with up to 23 other Kidde mains alarms, be they ionisation, optical or heat. Once interlinked, the detection of the relevant danger by an individual unit will sound across all the connected alarms.
- Interlink with up to 23 Firex hard-wired alarms – all alarms sound if danger is detected
- Alarm memory – identifies source unit within interconnecting network
- Reduced energy consumption – lower lifetime running costs
- Combined Test/Hush™ button allows regular testing of alarm function and can be used to temporarily silence nuisance alarms
- Auto reset after activation
- Tamper-resistant locking device – prevents unauthorised removal without the use of a tool
- Mains operation – 9V Alkaline back-up battery supplied as standard
- Ionisation alarms are for use in areas where there is danger from fast-flaming fires. This mains-powered unit complies with UK Building Regulations for new housing and associated standards (Grade D BS 5839, Part 6) and should be installed by a qualified electrician. It can be used throughout the home, except in the kitchen where a Firex Heat Alarm is recommended.

**Part No. Description**

82/00506 Ionisation Smoke Alarm AC with Alkaline back-up battery (KF10) – 6 year warranty

Firex KF10LL Smoke Alarm – Long Life Lithium battery back-up – 6 Year

- Mains-powered ionisation smoke alarm that can be interlinked with up to 23 other Kidde mains alarms, be they ionisation, optical or heat. Once interlinked, the detection of the relevant danger by an individual unit will sound across all the connected alarms.
- Interlink with up to 23 Firex hard-wired alarms – all alarms sound if danger is detected
- Alarm memory – identifies source unit within interconnecting network
- Reduced energy consumption – lower lifetime running costs
- Combined Test/™ button allows regular testing of alarm function and can be used to temporarily silence nuisance alarms
- Auto reset after activation
- Tamper-resistant locking device – prevents unauthorised removal without the use of a tool
- Mains operation – 9V Lithium back-up battery supplied as standard
- Ionisation alarms are for use in areas where there is danger from fast-flaming fires. This mains-powered unit complies with UK Building Regulations for new housing and associated standards (Grade D BS 5839, Part 6) and should be installed by a qualified electrician. It can be used throughout the home, except in the kitchen where a Firex Heat Alarm is recommended.

**Part No. Description**

82/00525 Ionisation Smoke Alarm AC with long-life Lithium battery (KF10LL) – 6 year warranty

Firex KF10R Smoke Alarm – Sealed-in rechargeable back-up – 6 Year

- Mains-powered ionisation smoke alarm that can be interlinked with up to 23 other Kidde mains alarms, be they ionisation, optical or heat. Once interlinked, the detection of the relevant danger by an individual unit will sound across all the connected alarms.
- Interlink with up to 23 Firex hard-wired alarms – all alarms sound if danger is detected
- Alarm memory – identifies source unit within interconnecting network
- Reduced energy consumption – lower lifetime running costs
- Combined Test/Hush™ button allows regular testing of alarm function and can be used to temporarily silence nuisance alarms
- Auto reset after activation
- Tamper-resistant locking device – prevents unauthorised removal without the use of a tool
- Mains operation – Built-in rechargeable Lithium back-up tamper-proof battery
- Ionisation alarms are for use in areas where there is danger from fast-flaming fires. This mains-powered unit complies with UK Building Regulations for new housing and associated standards (Grade D BS 5839, Part 6) and should be installed by a qualified electrician. It can be used throughout the home, except in the kitchen where a Firex Heat Alarm is recommended.

Part No. Description

82/00507 Ionisation Smoke Alarm with sealed-in rechargeable back-up (KF10R) – 6 year warranty

FIREX OPTICAL “MAINS” SMOKE ALARMS

Firex KF20 Smoke Alarm – 9V Alkaline battery back-up – 6 Year

- Mains-powered optical smoke alarm that can be interlinked with up to 23 other Kidde mains alarms, be they ionisation, optical or heat. Once interlinked, the detection of the relevant danger by an individual unit will sound across all the connected alarms.
- Interlink with up to 23 Firex hard-wired alarms – all alarms sound if danger is detected
- Alarm memory – identifies source unit within interconnecting network
- Reduced energy consumption – lower lifetime running costs
- Dust compensation and bug screen – reduces nuisance alarms
- Combined Test/Hush™ button allows regular testing of alarm function and can be used to temporarily silence nuisance alarms
- Auto reset after activation
- Tamper-resistant locking device prevents unauthorised removal without the use of a tool
- Mains operation – 9V Alkaline back-up battery supplied as standard
- Optical alarms are for use in escape or circulation routes and in areas where there is a danger of ignition of furniture and surroundings by cigarettes producing slow, smouldering fires. This mains-powered unit should be installed by a qualified electrician and can be used throughout the home, except in the kitchen where a Firex Heat Alarm is recommended. These alarms comply with UK Building Regulations for new housing and associated standards (Grade D BS 5839, Part 6).

Part No. Description

82/00502 Optical Smoke Alarm AC with Alkaline back-up battery (KF20) – 6 year warranty

Section 10

DOMESTIC FIRE SAFETY

Firex KF20LL Smoke Alarm – Long Life Lithium battery back-up – 6 Year

- Mains-powered optical smoke alarm that can be interlinked with up to 23 other Kidde mains alarms, be they ionisation, optical or heat. Once interlinked, the detection of the relevant danger by an individual unit will sound across all the connected alarms.

FIRE Angel “BATTERY” SMOKE ALARMS

Fire Angel ST622 Smoke Alarm – Low Battery Warning Silence – 10 Year

- Long life Lithium battery back-up
- Low battery warning silence
- Typically meets the minimum requirements for family living units in existing buildings, as long as at least one unit is installed on each floor/level of your property. Can also be used in individual flats and bedsits, providing the same conditions are met as for a single family residence. However, there must already be a primary fire detection system that meets regulatory requirements for common areas such as lobbies and hallways.

Part No.	Description
81/03570	Fire Angel Smoke Alarm – 10 year guarantee – ST622

CARBON MONOXIDE ALARMS (CO ALARMS) – TEST GAS AND RECORDING PAD

Smoke & Carbon Monoxide Alarm (England) Regulations 2015, No. 1693

The Law?

New Smoke and Carbon Monoxide regulations require residential landlords in England to have working and regularly tested smoke and CO alarms in all residential properties. The new legislation came in to force on 1st October 2015 and is expected to help prevent up to 26 deaths and as many as 670 injuries a year.

Changes for landlords:

Landlords in England are now legally required to have working and regularly tested smoke and CO alarms in all residential properties. The CO alarms must be sensor inclusively tested at the start of all new tenancies and during regular property inspections.

The Penalties?

Landlords not abiding by the regulations face prosecution and fines of up to £5,000 per property.

The Solution:

TG Products provides the complete solution by stocking award winning Detectagas® to help service companies provide their landlords with the right products to effectively undertake these tests. Detectagas® has been developed to inject a specific and safe level of test gas into a specially designed cover over the alarm, allowing the alarm's sensor and circuit to be tested. Simply pressing the test button on CO alarms does not test the sensor nor prove that contaminated air is reaching the sensor via the casing vents.

Detectagas® Benefits:

- Simple to use and entirely safe
- Laboratory tested
- Calibrated sensor test
- Eleven tests per can
- Low cost per test
- Tests all CO alarms
- Manufactured to BS EN50291 & UL 2034

Part No. Description

81/03572	Carbon Monoxide Domestic Alarm Test Gas – Detectagas 400ml
81/03573	Carbon Monoxide Alarm Test Gas – Test Pad (50 records)
